### Overview

The Google Drive API allows clients to access resources from Google Drive.

### About Google

Google's mission is to organize the world's information and make it universally accessible and useful. Through products and platforms like Search, Maps, Gmail, Android, Google Play, Chrome and YouTube, Google plays a meaningful role in the daily lives of billions of people.

be restricted to only call certain APIs.

Google Drive API

Where will you be calling the API from?

Credentials can be restricted using details of the context from which they're called. Some credentials are unsafe to use in certain contexts.

Web server (e.g. node.js, Tomcat)

What data will you be accessing?

Different credentials are required to authorise access depending on the type of data that you request.

☐ User data  
Access data belonging to a Google user, with their permission

☒ Application data  
Access data belonging to your own application

Are you planning to use this API with App Engine or Compute Engine?

Applications running on GCE and GAE can use application default credentials and don't require you to create a credential.

☐ Yes, I'm using one or both.

☒ No, I'm not using them.

What credentials do I need?
